FOR IMMEDIATE RELEASE

QUICKSILVER FIBERGLASS BOATS 2010

The 2010 Quicksilvers are set to bolster their position as the leading recreational boat brand in Europe. Numerous aesthetic enhancements give each model a fresh look for 2010. Whether it is the iconic Commanders with their functional center console and walkaround models, the Pilothouse models that provide shelter for safe saltwater boating, Weekenders for cruising in comfort, the convenient cabins of the Cruisers or the simplicity of the Fish models, there is a Quicksilver for every taste.

All Quicksilver boats are pre-rigged for optimal performance with Mercury outboards or MerCruiser stern-drive engines.

Commander	Cruiser	Weekend	Pilothouse	Fish
635 Walkaround	640	700	640	500
555 Walkaround	540	640 <i>outboard</i>	580	440
635	510	640 <i>stern drive</i>	530	410
555	470		500	360
525	430			

Featured Models:**525 COMMANDER**

The Quicksilver 525 Commander is sure to provide unforgettable time on the water whether it's sunbathing, water skiing or fishing. A comfortable cockpit with a centre console positioned for better on-board circulation is ideal for the helmsman. Passengers are treated to comfortable, flexible cushioned seating as well as a pedestal seat to accompany the helmsman. The picnic table in the bow is the perfect place for an on-board snack!

Easy handling on the water makes this boat ideal for the first time boater. Wide passageways, multiple hand rails and high freeboard are key safety features for families with young children.

640 CRUISER

As the flagship of the Quicksilver Cruiser range, the 640 is well suited for a day on the water with family and friends. The aft bench seat easily converts into a comfortable sunlounge area for a relaxing afternoon on the water. A large swim platform provides easy access to the water for diving, snorkeling or water skiing making the 640 Cruiser a very versatile craft.

Everything on board has been developed to maximize comfort: from the spacious cockpit with dual bucket seats and cockpit table to the ample sun pad on the foredeck. In the cabin, a V-berth for 2 persons and a portable toilet offer the necessities for a fun-filled weekend cruise.

The Quicksilver 640 Cruiser is equipped with hydraulic steering for smooth and secure handling and is powered by a MerCruiser petrol engine; either the standard 3.0L TKS or the 4.3 MPI.

About Mercury Marine
