

AQUASURE™ Neoprene Repair

Product Information

AQUASURE NEOPRENE REPAIR is a unique urethane rubber compound providing superior adhesion, wear resistance, flexibility and waterproofing. Unaffected by heat or solvents, **AQUASURE NEOPRENE REPAIR** cures to a flexible thermoset rubber product. An **AQUASURE** repair can be stretched and folded yet still spring back to its original shape without any damage. The highly concentrated formula has minimal shrinkage, allowing thick repairs with only one permanent application.

Easy to apply, **AQUASURE NEOPRENE REPAIR** may be used by itself or with Coto1-240™ Cure Accelerator and Cleaner, accelerating dry time to two hours. Used individually or with the accelerator, **AQUASURE NEOPRENE REPAIR** provides the highest adhesion and flexibility for all types of wet suits, dry suits, and watersports products.

Uses

Provides superior abrasion resistance and traction.
 Provides permanent, flexible repairs to wet suits, dry suits and neoprene products.
 Reinforces dive suit knees and elbows or other areas prone to excessive wear and tear.
 Waterproofs seams, repairs holes and tears

Characteristics

Concentrated urethane rubber formula
 Resistant to abrasion
 Minimal shrinkage: requires only 1 application
 Contains 78% rubber
 Superior adhesive strength
 Permanent application providing flexibility and waterproofing

Physical and Chemical Properties:

Physical form: Viscous, translucent liquid
Odor: Slightly aromatic
Specific gravity: 1.0
Solubility in water: Negligible
Chemical stability: Stable
Flash point: 68°

Additional Product Information (Aquasure 1 oz.)

Model: 10116A
UPC: 0-21563-10114-0
Case Size: 12
Retail Package: Hanging blister card
Dimensions: 5 3/4" X 8" X 1"
Weight: 1.9 oz.

Standard Pack

Quantity: 24
Dimensions: 5 3/4" X 10 7/8" X 6 1/2"
Weight: 3 lbs.
Cube: .23

Master Carton for Hazardous Shipment

Quantity: 384
Dimensions: 23 3/4" X 13 3/4" X 22 3/4"
Weight: 50 lbs.
Cube: 4.3
