

COTOL-240™ Cure Accelerator

Product Information

cleans and prepares the surface, readying it for Aquaseal, speeding the tack time to 15 minutes and the full cure time to less than two hours. COTOL-240 is also ideal for removing tar, sap, glue, and other resins from various surfaces. COTOL-240 is a urethane cure accelerator and pre-cleaner to be used in conjunction with Aquaseal®. The solvent including glass, plastic and metal.

Uses

Pre-cleans repair area
Speeds drying time
Removes resins from surfaces

Characteristics

Full strength, ready to use solvent
Provides quick, efficient "in-field" repairs

Physical and Chemical Properties:

Physical form: Liquid
Odor: Fragrant
Specific gravity: 25/25 : .866
Solubility in water: Insoluble in water
Flash point: 40°F
